Get Your PhoneTranslator is a complete and easy-to-use app that allows you to translate with very few taps. The only thing you need to do is enter a source or destination language and hit the "Translate" button. The app comes preinstalled in iOS, including: - Free (Basic version, just for fun) - Pro (Fast, full-featured version, always) - Business (More language translations, more features, more money) - Enterprise (Requires a subscription) You can activate the pro version in the app settings. To do so, there is no need to install a new app version or to modify the source code. It's activated by going into the settings, choosing 'Translate', then selecting 'Buy Pro'. I use my phone to help me work in many other languages. It's a great way to learn and practice the language with a simplified interface. The only thing that limits its use to a small number of languages. But I am sure that many people do not need this app to learn new languages.
