“Someday You’ll Return, a psychological horror and adventure game which isn’t afraid to make you think about your deepest fears, will leave you feeling uneasy. A game in which you will never be a protagonist, but a witness to violence and repression, a helpless being.” 9/10 – GK Gee, is that you? “Someday You’ll Return, a psychological horror adventure from French developers X-Dream and Noisy Pixel, is a game in which you’ll never feel like a protagonist. Instead you’ll play as a witness of violence and repression, a helpless being.” 80 – Gamezone (EU) “Someday You’ll Return is a perfect example of what can be achieved with the post-apocalypse setting: it’s not just a setting you see in cheap movies. Instead, this game shows you a dirty world where you only see a little bit of and where everything has a sense of mystery and urgency.” 9/10 – Game Republic

FEATURES: Story: Someday You’ll Return is a psychological adventure game. Explore a world which is not only destroyed, but completely forgotten. A world that was not built for people but of people. A world to which the past and the future are forgotten.

Unity Engine: The Unity Engine provides the foundation to create games of all shapes and sizes. From small independent projects to triple-A and next generation consoles. Unity is used for games like:

- Crazy Taxi
- My Farm
- Doom (2016)
- Final Fantasy VII
- Theme Park World
- Repopulishers
- Sonic the Hedgehog
- Top-Down Grand Theft Auto
- Tomb Raider
- Star Wars: The Old Republic

MORE ABOUT THE GAME Gameplay: Someday You’ll Return is a psychological adventure game which is not afraid to make you think about your deepest fears. Instead

you'll play as a witness of violence and repression, a helpless being. The tools to survive are simple: use weapons you find during the walk to protect yourself and get away from the horror of the past. In other games, you can feel empowered by choosing your weapon. You're fighting and beating your enemies and thus you can take the power away from them and make them afraid. But in Someday You'll

FURRY TOWER DEFENSE

The Furry Tower is under attack from an army of monkeys. The last person to hold the secret keys to the tower's treasure and keep the Furry Army out is about to be booted from his office. Help our hero, Jack, defend the tower and discover the secret keys. There are 14 courses, 5 types of monsters, 5 types of weapons and the most infamous monkey villains of all time. ----- Thimbleweed Park has been with us for a few months now. It may not have the attention of many of the following titles I am listing, but the game has done surprisingly well. I am recommending Thimbleweed Park to anyone who loves retro or point and click games. Fans of LucasArts and Monkey Island (some of whom may have played Thimbleweed Park while it was in development) will surely enjoy this odd gem. After an eventful trek through the Underground, Jack Jordan is about to finally get some much needed sleep at the Furry Tower. But there is a surprise waiting for him. After his boss Tony has been flirting with Abby the pot-bellied maid, the Furry Army has gone on the attack. Thimbleweed Park is the adventure game that explores the history of LucasArts, which created such greats as Indiana Jones and Sam & Max. It follows the rise and fall of that studio, which went from a large developer to bankruptcy. It is a fine transition from the more well-known Indiana Jones and Monkey Island series. The story is quite interesting, involving a conspiracy and a big something.

There are over 20 hours of content and hours of replayability. The game seems to be heavily inspired by the television show Twin Peaks. The puzzles have that unmistakable LucasArts style to them. However, the overall tone of the game is quite different from that of LucasArts.

Gameplay The game plays like most LucasArts puzzles. You see a room with a skull in it. You have to solve it. There are no dialogues, no cutscenes, no typing, there are just puzzles that require solving. Jack, our main character has a memory. When you enter a room, the game plays a brief clip that relates something about Jack. The puzzles all seem logical enough. The most baffling ones have to do with puzzles being all about riddles or chess. Puzzles that seemed easy at first are a bit challenging when they randomly change. It is like a game of Whack-a-Mole. The puzzles also d41b202975

What's new in FURRY TOWER DEFENSE:

PROJECT Pictures of this project by E.M., Daycare. Plans drawn up by Tammy. Some of the pictures show different views of each stage of the tower. 1. To start we need to build the bottom platform (30"x 52") and the frame to which the platform will rest (52"x 52"). Here is a picture of the frame, and its location on the concrete slab. Once the frame is built we can lay in the platform and arrange the ramps to the top of the tower. 2. Here is a more detailed look at the platform and frame. 3. At this point, the ramps and stairs needed to reach the top of the tower have been laid in place. 4. While the rest of the tot elevator is in complete disarray, some parts we still need to lay in place, like this little boy. We put the tires around the roof of the platform and now we can lay the girder braces over them and start the process of erecting the rest of the steel. 5. The following series of pictures shows our bird's eye view of getting the tower built. Here we have a detailed view of the tower, while the rest is getting built in the background. 6. Here you can see how the tower has been raised up a step from the ground level. 7. By this point, this is the state where we have to say good bye to our "volunteers", "workers" and "workers who just want a cool project". All of them have hung in for a week or more. 8. Once again, we've abandoned the efforts of the "volunteers". 9. The portal has been framed in, and that completes Stage 2. 10. Before we finish the tower, we've got the portal installed, and that gives us the first picture to complete Stage 3. 11. When that roof structure is complete we can say...THREE STAGES IN THE MAKING, AND IT'S COMPLETED!!!

Here we have our completed building, and it has all the necessary components for safe child entry. 12. NOW IT'S A MATTER OF FUNCTIONALITY!!! Here is a picture of what the kids have been doing in the play area all week: Additionally they are enjoying all the "Daycare" activities so they have something
